

Tuesday, May 24, 2022 7:30 pm Board of Trustees Monthly Meeting Meeting Room

Agenda

- 1. Roll Call
- 2. Public Comment
- 3. Consent Agenda (VOTE)
 - a. Approve April 2022 meeting minutes (Attachment)
 - **b.** Accept the April 2022 financial statements (Attachment)
 - c. Approve the new members of the Auxiliary Board (Attachment)
- 4. President's Report
- 5. Information Items
 - a. Staff Reports (Attachments)
 - i. Director's Report
 - 1. 1st Quarter Statistics (Attachment)
 - ii. Adult Report
 - iii. Teen Report
 - iv. Children's Report
 - **b.** Auxiliary Board
- 6. Board Discussion
 - **a.** 2021 Audit (VOTE)
 - **b.** Architect / Space Planner Presentation (Attachment)
 - c. Mission Moments (Attachment)
- 7. New Business
- 8. Executive Session

Next meeting dates:

Tuesday, June 28 – 7:30 pm Tuesday, July 26 – 7:30 pm

Vehicle Fair – May 22, 2022 11 am to 3 pm Summer Reading Minigolf Kickoff – June 25, 2022 2 to 4:30 pm

Minutes of the April 26, 2022 RFRR Board meeting

Kathleen Riegelhaupt called the meeting to order at 7:32. No one from the public was in attendance. The following representatives from the space planning consultants were also in attendance: Skolnick Design and Architecture: Lee Skolnick, Jo Ann Secor, Christian Ferwerda, and Vonn Weisenberger; TMS Waterfront: Dena Pratos; Altieri: Philip Steiner and Anthony Amoroso.

Consent Agenda

Kathleen presented the Consent Agenda which included the minutes of the March 2022 Board meeting and the March 2022 financial statement. The financial statement was pulled out for discussion. Jackie moved to approve the remainder of the Consent Agenda and Jan seconded. All approved.

Maria made a brief review of the financials. The annual campaign is tracking ahead. The largest expense for the month has been for the space planning consultant. There is a meeting scheduled with the asset managers this coming Friday. Kathleen requested a motion to accept the March 2022 financial statement. Jan so moved and Matt seconded. All approved.

President's Report

Kathleen outlined the process so far with the planning consultants. The reminder of her report was the presentation by the representatives of Skolnick Design and Architecture, TMS Waterfront and Altieri of their final report and recommendations which included flood mitigation measures; relocation of the children's room to the first floor; relocation of the meeting room and study spaces to the basement; construction of additional of space for the teen on the second floor and renovation of a portion of the attic for offices and meeting space.

After the presentation, Kathleen opened the meeting up for discussion. She noted that this was a big project and that no decision would be made at this meeting. Francis asked if the scope of the project would impact staffing. Chris responded that 1 or 1.5 FTE would be needed for the children's room and teen space. Jackie asked about the location of the children's collection. Picture books would be in the children's room.

Board books would be in the enrichment space and chapter books would be in the preteen area on the mezzanine. Francis asked about how high we would need to go to be out of the flood zone. It would be more than 28 feet that is why the wet flood proofing solution is recommended. Kathleen asked about the need for variances from the City. Skolnick's team has met with Rye's flood officers. There was a discussion about a back-up generator and how much of the library it should service. Kathleen said that Chris would send out the full report to the Board and any questions should be directed to him. She outlined the next steps. The May Board meeting will have a more robust discussion on the size and scope of the project and the willingness of the Board and the community to go forward with such a project. The Skolnick team will get a proposal from structural engineers regarding the foundation wall by the brook. It would be useful to get a sense of opinion of the BAR, Landmarks and other City agencies for such a project.

Auxiliary Board

Lina reported that all the vehicles are set for the Vehicle Fair on May 22. The next step is marketing the event. Grace reported that so far there are 5 confirmed hosts for Novel Night (Oct. 15) which would cover about 200 guests. They are working to get more. The journal committee is gathering ads from local businesses. All that had advertised in the past are interested in doing so again. Kathleen pointed out that the Skolnick report will be sent to the members of the Auxiliary Board.

Policy Review

Kathleen announced that the next 3 policies up for review will be collections, card holders and by-laws. There will be staff participation in the collections policy review.

Mission Moments

Chris reported that Music on the Green will begin on May 21. He reminded Board members to sign up to sponsor a hole at the miniature golf event that is the kick-off for the summer reading program.

There being no new business, Kathleen called for a motion to adjourn the meeting. Matt so moved and Jackie seconded. All approved. The meeting was adjourned at 8:57.

Action: The Board approve the March 2022 meeting minutes

April Financials

In Income

• Operating income is quiet, but the combined report shows income for both the Vehicle Fair and Novel Night.

In expenses:

- Material spending is up compared to last year, as much of the supply chain issues for books appears to have been resolved.
- Library operations has a number of timing expenses, as well as the transfer for the children's flood collection, so it shows very high compared to projection.
- In Building expenses, the cost for the Spinelli site survey is shown, The other regular large expense is the contract with Coverall the janitorial service.
- Personnel is behind budget in part due to the vacant children's librarian position. That should balance out over the coming months once the hiring process is complete.

Action : The Board accept the April 2022 Financial Statement

New Auxiliary Board Members

- At the May Auxiliary Board Meeting, two new members were voted on and approved by the members.
 - o Kelli Sussman
 - o Gwendolyn Boyce

Action : The Board approve the two new members to the Auxiliary Board

Director's Report

LIBRARY OPERATIONS:

- Budget
 - o Developed outline for 2023 and 2024 budgets
- Strategic Planning
 - o Reviewed Board matrix
 - Reviewed communication and marketing strategy with communications co-ordinator

FUNDRAISING, OUTREACH & COMMUNITY RELATIONS:

- Annual Campaign
 - Started photo selection and draft message for 2022 Annual Campaign
- Community Relations
 - Attended Chamber of Commerce Meeting
 - Attended Gregg Howell's retirement celebration
 - Planned 2023 program series with CURE
- Fundraising
 - Completed preparation for 2022 Vehicle Fair
 - Completed METRO mid-program review
 - Secured grant from RW 250 for a joint historical presentation with Rye Historical Society

BUILDING & GROUNDS:

• Continued work with Skolnick on flood solution plans

STAFF & PERSONNEL

- Conducted interviews for Children's Librarian
- Conducted interviews for Children's Librarian Assistant
- Conducted interviews for Technical Services Assistant

1ST Quarter Statistics

Circulation is slightly ahead of 2021, and close to the first quarter of 2020. Despite the smaller collection due to flood related losses, children's circulation is only down by 1% over last year. Over half the DVD collection was lost, and is a lower priority for replacement than the picture books.

New card signups grew as well, and the library has re-introduced orientation e-mails for new cardholders. These monthly e-mail blasts give helpful links to resources and other services available through the Rye Free Reading Room card.

Website use has fallen compared to 2021, as appointments are no long required for entry. Patrons can book appointments for notary services and curbside pick-ups, but residents are less inclined to do so.

Programs and program attendance have both increased as well, much closer to prepandemic numbers. Programs are scheduled to return to the green in May, which expand the program capacity even more.

Baker and Taylor has improved shipping, and more materials are arriving in a timely manner. In addition, Lisa Fitzmaurince has spent \$30,000 of the \$100,000 children's fund set aside to replace materials, and those items are coming in rapidly.

• The Rye High School Internship program is meeting at the library 5 days a week, 8:00 am - 12:00 pm. for three weeks.

MATERIALS:

- Seed Library was brought up to date the first week in May.
- Our library desk top computers were out of service for a number of days due to a WLS cyber security breach which brought the use of our Chromebooks up significantly.

Teen Services

PROGRAMMING AND DISPLAYS:

- Two displays for this month include a Mental Health Awareness display, as well as Asian American and Pacific Islander Heritage display; each garnering praise from the teens in the space.
- Planning for the TAB led collaboration with the RHS International Club continues for the Cultural Fair later this week, in addition to the community co-run Pride event happening tomorrow with positive turnout anticipated.
- Passive programming, like board games, daily riddles, Nintendo use, and interactive displays remains high, and attendance at other events is increasing again with middle schoolers predominantly attending and expressing interest in future events particularly lock-ins.
- The library has a teen team for the Battle of the Books Summer League with 4 returning members, and 1 new member.

<u>COMMUNITY OUTREACH -</u> Strategic Goal # 1: Strengthen School and Youth Serving Organization Partnerships

- Program collaboration with the YMCA, pRYEde, Youth Council, and Rye ACT is going strong for the "The Power of Community" event centered around LGBT support and information.
- A mock interview workshop has been rescheduled with the YMCA for the fall due to staff turnover/shortages on the Y's part

(Strategic Goal # 4: Advance Strategic Partnerships with Community and Regional Agencies).

• Virtual talks with other libraries focusing on adulting topics and mental health are in the works for the fall

MATERIALS:

- More board games were ordered and await being added to the collection.
- The teen collection is currently being genrefied and this project expected to be completed by June

Children's Services

PROGRAMMING AND DISPLAYS

- May our special program was a Mother's Day tea party. We had about 20 people attend and it was a lovely day. Rain definitely affected attendance.
- Storytimes and music/movement programs are now offered every weekday morning in the library. Tales for Tots on Mondays, Marilyn's bilingual Spanish program on Tuesdays, Wiggle Giggle time on Wednesdays, and Robert the Guitar Guy on Thursdays.
- Discovery Storytime officially came back in May. We are now utilizing our lego and play tables after a short storytime on Friday mornings.
- STEAM Across the Sound Shore is coming to a close this month. We will make up some missed classes in the fall.
- Crafty Kids continues on Wednesday afternoons with Lisa, now that Michelle has moved on.
- Our Take and Make bags are still being assembled and distributed monthly.
- Planning is finished for Summer Reading 2022, and preparations are well underway.
- Displays for Vehicle Fair has been very popular this month.

<u>COMMUNITY OUTREACH (Strategic Goal # 1: Strengthen School and Youth Serving</u> <u>Organization Partnerships):</u>

• We are working with our community partners to try to attract more kids to the STEAM program.

• We have ordered several books to support the school summer reading lists. <u>MATERIALS:</u>

- Ordering of new books continues regularly.
- A large scale audit of the collection has begun. We are hoping to see what is still missing from the shelves and be able to re-order some a large amount of items that were lost in the flood.
- The dollhouse/toys have returned, along with large groups of children and caregivers. We are so happy to have the hustle and bustle back in the children's room.

2021 Audit

The 2021 Audit process is nearing completion. Jamie Rapps, of Grassi, presented the financial statement and management letter to Maria Seiler on May 19, 2022.

Rye Free Reading Room received a clean opinion from Grassi.

From the financial statements, the library had a positive change in net assets, rom a decrease of \$338,176 in 2020 to an increase of \$569,993 in 2021. This was driven by the income from and forgiveness of the PPP loans, strong growth in investment income, and higher than normal contributions. The largest area of change in net asses was in the non-donor restricted funds.

The level of liquidity also increased from 2021 compared to 2020, growing from \$44,664 to \$285,090.

The Management Letter noted no material weaknesses at the library. Segregation of duties is regularly identified as a significant deficiency, but the size of the organization is the main factor. Policies and procedures are in place to reduce risk. There were recommendations about documenting journal entries and investment reconciliation, as well as updating the library bylaws. Chris and Stacy will work with Maria and the Finance Committee on the journal entry and investment reconciliations.

Jamie also presented a communications letter from Grassi, which highlighted resources available for financial governance training as well as other non-profit resources.

INDEPENDENT AUDITORS' REPORT

To The Board of Trustees Rye Free Reading Room

Opinion

We have audited the accompanying financial statement of Rye Free Reading Room, which comprise the statement of financial position - modified cash basis as of December 31, 2021 and 2020, and the related statements of revenues collected, expenses paid and changes in net assets - modified cash basis, functional expenses - modified cash basis and cash flows - modified cash basis for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and net assets of Rye Free Reading Room as of December 31, 2021 and 2020, and its support, revenue and expenses for the years then ended in accordance with the modified cash basis of accounting as described in Note 2.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rye Free Reading Room and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Rye Free Reading Room 's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rye Free Reading Room's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Note 1 - Organization and Nature of Activities

Rye Free Reading Room (the "Library") is an Association library located in Rye, New York, which was incorporated under an Act of the Legislature of the State of New York on April 12, 1884. It provides up-to-date information services and recreational materials to the public using a variety of resources including books, technology, media, and public programs targeted for all ages. It is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The Library is supported primarily by an annual contract with the City of Rye, contributions and dues.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the modified cash basis of accounting. Consequently, revenues are recognized when received rather than when earned, and expenses are recognized when paid rather than when the obligation is incurred. However, debt, unrealized gains and losses on investments, and depreciation expense are recognized in the financial statements.

Cash and Cash Equivalents

The Library maintains cash balances in financial institutions. Such balances are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to \$250,000 per institution. At December 31, 2021 and from time to time during the years ended December 31, 2021 and 2020, the Library's cash accounts exceeded federally insured limits.

The Library considers all highly liquid investments with original maturities of three months or less to be cash and cash equivalents. At December 31, 2021 and 2020, cash equivalents consisted primarily of money market accounts with brokers.

Investments and Net Investment Return

Investments in equity securities having a readily determinable fair value are carried at fair value in accordance with the Not-for-Profit Entities topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). Other investments are valued at the lower of cost or fair value. Investment return includes dividend, interest and other investment income; realized and unrealized gains and losses on investments carried at fair value; and realized gains and losses on other investments.

Investment returns that are initially restricted by donor stipulation and for which the restriction will be satisfied in the same year are recorded as revenue with donor restrictions and then released from restriction. Other investment returns are reflected in the statements of revenues collected, expenses paid and changes in net assets - modified cash basis as with or without donor restrictions based upon the existence and nature of any donor or legally imposed restrictions.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. To increase the comparability of fair value measurements, a framework for measuring fair value is used which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under FASB ASC Topic 820, *Fair Value Measurement*, are described as follows:

Level 1 - Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 - Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs reflecting the Library's own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Refer to Note 3 for assets measured at fair value at December 31, 2021 and 2020 in accordance with FASB ASC Topic 820.

Property and Equipment

Property and equipment acquisitions are stated at cost, less accumulated depreciation. The Library capitalizes buildings and building improvements with a cost of \$5,000, and furniture and equipment with a cost of \$2,000 and an estimated life of greater than one year. Depreciation is charged to expense on the straight-line basis over the estimated useful life of each asset. The estimated useful lives for each major depreciable classification of property and equipment are as follows:

Buildings	30 years
Building improvements	30 years
Furniture and equipment	5 to 20 years

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Long-Lived Asset Impairment

The Library evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimated future cash flows expected to result from the use and eventual disposition of the asset are less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of the long-lived asset exceeds its fair value.

No asset impairment was recognized during the years ended December 31, 2021 and 2020.

Net Assets

Net assets, revenues, gains and losses are classified based on the existence or absence of donor restrictions.

Net assets without donor restrictions are available for use in general operations and not subject to donor restrictions. The governing board has designated, from net assets without donor restrictions, net assets for fixed assets and endowment.

Purpose restricted net assets are those net assets that are restricted by donors for specific purposes. Endowment net assets are those net assets whose principal may not be expended. The donors may or may not restrict the use of investment income.

Government Grants

Revenues from government grants are recognized when received. Such revenues are subject to audit by the agencies.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Contributions

Contributions are provided to the Library either with or without restrictions placed on the gift by the donor. Revenues and net assets are separately reported to reflect the nature of those gifts - with or without donor restrictions. The value recorded for each contribution is recognized as follows:

Nature of the Gift	Value Recognized
Conditional gifts, with or without restrictions	
Gifts that depend on the Library overcoming a donor-imposed barrier to be entitled to the funds	Not recognized until the gift becomes unconditional, i.e. the donor-imposed barrier is met
Unconditional gifts, with or without restrictions	
Received at date of gift - cash and other assets	Fair value
Received at date of gift - property, equipment and long-lived assets	Estimated fair value
Albert a denor ating lated time restriction and an purpose re	atriation is accomplished, not accet

When a donor-stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of revenues collected, expenses paid and changes in net assets - modified cash basis as net assets released from restrictions. Absent explicit donor stipulations for the period of time that long-lived assets must be held, expirations of restrictions for gifts of land, buildings, equipment and other long-lived assets are reported when those assets are placed in service.

Special Events

The Library conducts special events in which a portion of the gross proceeds paid by the participant represents payment for the direct cost of the benefits received by the participant at the event. All proceeds received are recorded as special events revenues in the accompanying financial statements.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Functional Expenses

The costs of supporting the Library's services have been summarized on a functional basis in the statements of revenues collected, expenses paid and changes in net assets - modified cash basis. The statements of functional expenses - modified cash basis present the natural classification detail of expenses by function. Certain costs have been allocated among the program and supporting services benefited.

Accounting for Uncertainty in Income Taxes

The Library has determined that there are no material uncertain tax positions that require disclosure in the financial statements. The Library is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Library believes it is no longer subject to income tax examinations prior to 2018.

Note 3 - Fair Value Measurement

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

Equities, U.S. Treasury securities, mutual funds, exchange traded funds ("ETFs") and real estate investment trusts are valued based upon quoted market prices. Israel bonds and corporate bonds are valued based upon quoted prices from brokers for similar assets.

The following table presents the Library's assets that are measured at fair value on a recurring basis:

Investmente et Fein Velue et December 24, 2024

Note 4 - Property and Equipment

The Library received a donation of land on March 23, 1910 and subsequently constructed the Library. The Library assigned the land and building a nominal value of \$7. The cost basis (value) of the land when acquired would be immaterial to the current financial statements and the building would be fully depreciated. The Library continues to reflect the nominal value on the statements of financial position - modified cash basis.

Property and equipment, net consisted of the following as of December 31:

×.						
Orali	 Cost		ccumulated epreciation	Net		
Land Building Building improvements Furniture and equipment	\$ 3 3,907,620 1,035,422 309,581	\$	- 2,340,464 98,068 256,097	\$	3 1,567,156 937,354 53,484	
	\$ 5,252,626	\$	2,694,629	\$	2,557,997	

Note 4 - Property and Equipment (cont'd.)

	 Cost		Net		
	 Cost Depreciation		inel		
Land	\$ 3	\$	-	\$	3
Building	3,907,620		2,210,210		1,697,410
Building improvements	1,002,664		62,468		940,196
Furniture and equipment	309,581		245,075		64,506
Construction in progress	 14,553		-		14,553
	\$ 5,234,421	\$	2,517,753	\$	2,716,668

Depreciation expense amounted to \$176,876 and \$175,106 for the years ended December 31, 2021 and 2020, respectively.

As a result of the flooding from Hurricane Ida and other weather events that have occurred in recent years, in December 2021 the Library entered into a \$95,000 contract with a company for a space needs and programming study to provide concept designs and vision documents for improvements to the Library to assist it in mitigating these risks. The report was received in April 2022, and as of the date of these financial statements, the Library is in the process of evaluating the results and how it wants to proceed. In addition, as of the date of these financial statements, the Library has not entered into any additional contracts related to the recommendations contained within it.

Note 5 - Loan payable

Paycheck Protection Program Loan Payable

On May 6, 2020, the Library entered into a \$189,300 loan agreement with a financial institution under the Paycheck Protection Program (the "Program"), established by the Coronavirus Aid, Relief, and Economic Security ("CARES") Act, administered by the Small Business Administration ("SBA") with support from the Department of the Treasury. In June 2021, the Library applied for and was granted full forgiveness by the full amount of the loan. As a result, the loan forgiveness is reported in the statement of revenues collected, expenses paid and changes in net assets – modified cash basis for the year ended December 31, 2021.

On February 25, 2021, the Library entered into a \$220,110 second draw Program loan. In December 2021, the Library applied for and was granted full forgiveness by the full amount of the loan. As a result, the loan forgiveness is reported in the statement of revenues collected, expenses paid and changes in net assets – modified cash basis for the year ended December 31, 2021.

Note 6 - Net Assets with Donor Restrictions

Net assets with donor restrictions consisted of the following at December 31:

Subject to expenditure for specified purposes:		<u>2021</u>	<u>2020</u>				
Library services Next Chapter	\$	144,775 -	\$	103,227 -			
		144,775		103,227			
Endowments: Restricted by donors for library services Subject to endowment spending policy		890,806	2	890,806			
and appropriations for library services		520,170	$\overline{)}$	441,063			
		1,410,976		1,331,869			
	\$	1,555,751	\$	1,435,096			
Net assets released from restrictions are as follows for the years ended December 31:							
i S		<u>2021</u>		<u>2020</u>			
Library services Next Chapter	\$	51,927 -	\$	55,661 313,542			
x	\$	51,927	\$	369,203			

Note 7 - Endowment

The Library's endowment consists of approximately five individual funds established to support the Library's operations. The endowment includes both donor-restricted endowment funds and funds designated by the governing body to function as endowments (board-designated endowment funds). As required by accounting principles generally accepted in the United States of America ("U.S. GAAP"), net assets associated with endowment funds, including boarddesignated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Library's governing body is subject to the New York Prudent Management of Institutional Funds Act ("NYPMIFA"). As a result, the Library classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions because those net assets are time restricted until the governing body appropriates such amounts for expenditures. Most of those net assets also are subject to purpose restrictions that must be met before being reclassified as net assets without donor restrictions.

Note 7 - Endowment (cont'd.)

Additionally, in accordance with NYPMIFA, the Library considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1. Duration and preservation of the fund
- 2. Purposes of the Library and the fund
- 3. General economic conditions
- 4. Possible effect of inflation and deflation
- 5. Expected total return from investment income and appreciation or depreciation of investments
- 6. Other resources of the Library
- 7. Investment policies of the Library

The objective of the Library is to maintain the principal endowment funds at the original amount designated by the donor while generating income for the Library's programs. The investment policy to achieve this objective is to invest in low-risk securities. Investment income earned in relation to the endowment funds is recorded as income with donor restrictions and released from restriction upon expenditure for the program for which the endowment fund was established.

The Library does not have any funds with deficiencies.

The composition of net assets by type of endowment fund at December 31, 2021 and 2020 was:

	2021							
	~	5	With Donor Restrictions

Endowment net assets, end of year	\$ 857,850	\$ 441,063	\$ 890,806	\$ 2,189,719				

Note 8 - Pension Plan

Full-time employees of the Library are enrolled in a pension plan administered by the New York State Employees' Retirement System ("NYSERS"). Cash payments of \$97,127and \$73,001 were contributed in 2021 and 2020, respectively. In connection with a shortfall in investment earnings by NYSERS, the Library was notified that it has a potential liability of \$2,207 and \$544,186 as of December 31, 2021 and 2020, respectively.

RYE FREE READING ROOM NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

Note 9 - Financial Assets and Liquidity Resources

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of December 31, 2021 and 2020 comprise the following:

	<u>2021</u>	<u>2020</u>
Financial assets:		
Cash and cash equivalents	\$ 742,474	\$ 505,873
Investments	2,376,036	2,073,273
Total financial assets	3,118,510	2,579,146
Less: Internal designations:	KID	
Board-designated funds	1,277,669	1,099,386
Donor-imposed restrictions:	,,	.,,
Restricted funds	144,775	103,227
Donor-restricted endowment fund	1,410,976	1,331,869
Financial assets (deficit) available to meet cash needs		
for general expenditures within one year	\$ 285,090	\$ 44,664

The Library receives contributions restricted by donors and considers contributions restricted for programs which are ongoing, major and central to its annual operations to be available to meet cash needs for general expenditures.

The Library's endowment funds consist of donor-restricted endowments and funds designated by the board. Income from donor-restricted endowments is restricted for specific purposes, with the exception of the amounts available for general use. Donor-restricted endowment funds are not available for general expenditure. The board-designated endowment of \$978,767 and \$857,850 at December 31, 2021 and 2020, respectively, is subject to an annual appropriation approved by the board. Although the Library does not intend to spend from this board-designated endowment (other than amounts appropriated for general expenditure as part of the board's annual budget approval and appropriation), these amounts could be made available if necessary.

The Library manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged. To achieve these targets, the Library forecasts its future cash flows and monitors its liquidity monthly. During the years ended December 31, 2021 and 2020, the level of liquidity and reserves was managed within the policy requirements.

RYE FREE READING ROOM NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021 AND 2020

Note 10 - Concentrations

Contributions

Approximately 58% and 76% of all revenue was received from the City of Rye in 2021 and 2020, respectively.

Investments

The Library invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of financial position - modified cash basis.

Note 11 - <u>Commitment</u>

As a result of Hurricane Ida in August 2021, the Library incurred significant damage and submitted claims for reimbursement to its property and flood insurance carriers. In December 2021, the Library received \$25,000 from their property insurance carrier which was recorded as a reduction in repair and maintenance expenses on the statement of revenues collected, expenses paid and changes in net assets - modified cash basis and statement of functional expenses - modified cash basis. Subsequent to year end, the Library received proceeds of \$196,000 from their flood insurance carrier, and will be recorded as revenue on the Library's December 31, 2022 financial statements.

Note 12 - Contingency

As a result of the spread of the coronavirus disease ("COVID-19"), economic uncertainties have arisen which may impact the Library's investments and generation of contributions and grant income. Other financial impact could occur, though such potential impact is unknown at this time.

Note 13 - Subsequent Events

Management has evaluated all events or transactions that occurred after December 31, 2021 through XX, 2022, which is the date that the financial statements were available to be used. During this period, there were no material subsequent events requiring disclosure except as discussed in Notes 4 and 11.

THE AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE FOR THE YEAR ENDED DECEMBER 31, 2021

RYE FREE READING ROOM

To The Board of Trustees Rye Free Reading Room

We have audited the financial statements of Rye Free Reading Room (the "Library") for the year ended December 31, 2021 and have issued our report thereon dated June XX, 2022. Professional standards require that we provide you with the following information about our responsibilities under generally accepted auditing standards, as well as the information related to the planned scope and timing of our audit and certain information related to our audit. We have communicated such information in our letter to you dated February 1, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Library are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2021. We noted no transactions entered into by the Library during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

• Management's estimate of the allocation of expenses by function and depreciation. We evaluated the key factors and assumptions used to develop the allocation of expenses and depreciation in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. Entries were proposed to recognize income on the forgiveness of the PPP loans as well as bring the books back to the modified cash basis of accounting by unwinding transactions still in accounts payable at yearend.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June XX, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Library's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Library's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of management and the Board of Trustees of Rye Free Reading Room and is not intended to be, and should not be, used by anyone other than these specified parties.

Recordings are available for all previously scheduled sessions:

Understanding Fraud and Strategies to Mitigate Your Organization's Risk Tuesday, January 25 | 12:00p.m. - 1:00p.m. EST

As your nonprofit operates in the real world to serve your community and carry out your mission, there are risks and vulnerabilities for fraud to occur. In addition to the potential for financial losses, falling victim to fraud can have serious reputational consequences for the organization as well. Join Grassi's Nonprofit Practice and BankUnited for a live video session discussing the types of fraud that can occur within the industry, how your nonprofit may be targeted, and best practices for prevention and detection.

Listen to session recording.

The Internet of Vulnerabilities – Managing Your Technology Risk Wednesday, February 23 | 12:00p.m. - 1:00p.m. EST

Technology plays a crucial role in helping your organization streamline processes and generate greater efficiencies to fulfill your mission and maintain financial health. As the world continues to shift toward remote and hybrid environments and more digital resources become available and implemented within your nonprofit, its susceptibility to cyber threats will only increase. In this live video session, Grassi's Nonprofit advisors and special guests will discuss cybersecurity solutions and internal controls that can be implemented to reduce your overall cybersecurity risk and safeguard your organization against digital threats.

Listen to session recording.

Economic Forecast for Nonprofits and Foundations Wednesday, March 30 | 12:00p.m. - 1:30p.m. EST

Sustaining your organization's mission and financial health requires a thorough understanding of the current and future economic factors. Join Grassi's Nonprofit team and a special guest economist for this live video session that will provide an analysis of real-time economic data and a forecast of what to expect in the months ahead. Areas of discussion will include the current and future state of labor markets, financial markets, real estate, consumer spending, government finances and more.

Listen to session recording.

GRASSI

The purpose behind everything we do at Grassi revolves around the success of our clients and the enrichment of our relationships. As a strategic partner, Grassi professionals become true ambassadors of what our clients' businesses should look like in the future. We work alongside them to get their businesses there, celebrating their success and knowing that it also contributes to our own professional growth and development. Together, through our internal and external efforts, we enable our clients, communities and each other to realize their maximum potential.

Our not-for-profit specialists are highly aware of the everchanging operating environments and accounting challenges that exist for notfor-profit organizations.

We utilize our expertise to work closely with management and the governing body to increase overall operating controls, while minimizing challenges and enhancing overall success.

By providing counsel to a cross section of the industry, we are well equipped to bring best practices to our clients. Now, more than ever, not-for-profits are closely scrutinized and held accountable. We believe in order to properly serve our not-for-profit clients we must concentrate our efforts on their specific needs. Our keen business sense has given us the ability to recommend and develop customtailored solutions for clients in a creative and constructive manner.

Grassi's Not-for-Profit Practice is built around a team of experts who study the industry, building an unmatched knowledge base. The Not-for-Profit Practice Team regularly interviews organizational leaders, bankers, attorneys, thought leaders and advisors across the industry to continue to expand our base of knowledge and to develop innovative new ideas and services.

As a result, our depth of knowledge and experience in your industry allows us to bring you market dynamics and conditions and inform you on how they can influence and impact your decisions.

Reimagining Strategic Vision for Nonprofits

for discu **Evaluating Everything** After COVID-19

By David M. Rottkamp

IN BRIEF

The not-for-profit organizations that have weathered the storm of COVID-19 the best are those that have reimagined the organization's mission, strategic vision, and sustainability plans in light of changing circumstances. The best way to prepare for an uncertain future is to start now, by reimagining aligning parts of the organization necessary to carry out its mission for years to come. CPAs can take a more active role in helping nonprofits achieve their missions and make a profound impact in the communities they serve.

APRIL/MAY 2021 | THE CPA JOURNAL

an of

ne year after the coronavirus (COVID-19) pandemic began, the difference between nonprofits who are still struggling to regain their footing and those who are emerging stronger than ever has largely come down to one key factor: whether or not they *reimagined* the organization's mission, strategic vision, and sustainability plans in light of the changing circumstances. CPAs advising nonprofits—whether as accountants,

APRIL/MAY 2021 | THE CPA JOURNAL

financial executives, board members, auditors, or in other roles—have played a part in this examination and reevaluation.

-115510

Looking back at the past 12 months, this reimagining took many different forms. For example, organizations that depended on in-person fundraising events quickly pivoted to virtual events, such as galas, cocktail parties, and wine tastings. Schools became virtual practically overnight, and many reopened in innovative ways, blending dis-

INFOCUS

tance learning with in-person learning while enforcing social distancing requirements. Healthcare providers swiftly moved to providing services via telehealth. Even residential facilities and homeless outreach organizations, which cannot provide services remotely, reimagined their protocols and facilities to sustain their operations and missions.

Across all types of organizations, nonprofits had to reimagine their remote workforces, put a stronger focus on technology, and find new ways to engage and communicate with their stakeholders. during the COVID-19 pandemic and the importance of a refreshed strategic vision, both while the crisis continues and after it (hopefully) subsides.

Realigning Programmatic Strategies

Many nonprofits were able to successfully navigate the pandemic by realigning their programmatic strategies with the changing needs of their constituents, who were suddenly faced with new health, economic, and social concerns. Just as manufacturers found their products in low demand during quarantine and quickly tranThe same is true for foundations and other organizations that raise money for others. Throughout the COVID-19 pandemic, many of these organizations shifted their funding toward new, urgent pandemic-related needs. But when was the last time they assessed other underfunded and underserved segments of the populations they serve? These populations have most likely changed or increased during the crisis and will still be in dire need of services after the pandemic ends.

Embracing Technology

It is no surprise that most of the solutions nonprofits turned to amid mandated closures and social distancing requirements involved *technology*, but this was a game changer not only for the obvious reasons. Without question, virtual events and

meetings were the only feasible way to bring donors, boards, employees, and

other stakeholders together during the pandemic. Choosing this option was a

big reason why many nonprofits were

Nonprofit organizations that did not pivot their strategic vision are likely still struggling as much today as they were when the pandemic began:

Regardless of what the reimagning looked like—or should have looked like—nonprofit organizations that did not pivot their strategic vision are likely still struggling as much today as they were when the pandemic began. The good news? It is not too late to look back at the lessons learned throughout the crisis and help nonprofit clients reimagine how their missions fit into the new reality.

If a nonprofit is still trying to operate under a pre-pandemic vision, it is imperative to help them reevaluate their current—and future—business model. This article will review some of the most impactful strategies to come out of the nonprofit sector sitioned to producing face masks, hand sanitizer, or personal protective equipment, these nonprofit organizations understood the importance of reimagining their programs to better meet the rapidly evolving needs of their communities.

Although the pandemic is an extreme example of the need to reevaluate programming and align it with demand, global crises are not the only situations that require such assessments. A nonprofit's financial sustainability is directly tied to its ability to continually meet their constituents' and community's expectations and needs—all of which are constantly evolving. able to sustain their missions and keep their organizations moving forward during the COVID-19 pandemic. Technology is not always a priority at nonprofit organizations, mostly due to the expense and resources required. But nonprofits that were not already making strategic investments in their technologies were at a big disadvantage even before the pandemic, which compounded these shortcomings even more. For example, if internal controls within a workforce did not take workfrom-home scenarios into consideration, organizations were facing high

went remote with little time to prepare. Healthcare providers who were forced to cancel high volumes of appointments because they had not proactively adopted telehealth practices fell far behind their peers who had. Schools that had not invested in technology upgrades struggled to meet parents' expectations and students'

risks of cyberattacks when workforces

needs when they were suddenly forced to close.

The COVID-19 pandemic presents a stark confirmation of what nonprofit organizations should have been doing all along: acknowledging the major role that technology plays in fulfilling their mission, maintaining their financial health, and utilizing the digital resources that are critical to future sustainability. CPAs can help turn this tide by helping nonprofits evaluate the internal controls, financial systems, cybersecurity and other digital tools they had in place before and during the pandemic, as well as recommending improvements that will have a lasting impact long after the pandemic is over.

Transformation of Connectivity

The importance of staying connected with stakeholders, communities, and the public throughout the pandemic cannot be stressed enough. Nonprofits that took advantage of the power of virtual and electronic communications to disseminate their messages to an even greater audience held a significant advantage over those that did not.

While serving the community and connecting with donors is a deeply personal activity, there are benefits, to the virtual connections COVID-19 has necessitated. The ability to involve donors and stakeholders across the world in a single event, as well as the opportunities to offer new online services for the first time, should not be overlooked or undervalued.

As COVID-19 restrictions are lifted moving forward, nonprofits should continue to utilize these additional ways to connect, fundraise, and communicate their missions to a wider range of potential donors, board members, and other interested parties. This is not an alternative means of communication until in-person gatherings resume, but rather a complementary and effective—way to keep communities engaged.

Identifying New Revenue Streams

The COVID-19 pandemic put added financial strain on most nonprofit organizations. It is important to mitigate this impact on current resources by proactively identifying new sources of revenue streams. As business advisors, CPAs can guide nonprofits toward pursuing their options, which include the following:

• Private sector partnerships. Engaging corporations, especially as COVID-19 restrictions and purse strings loosen up again, is an excellent source of alternative revenue. Operating efficiencies. A nonprofit should not only look outside the organization for additional revenue streams. Many times, extra dollars can come from the cost savings it can find within their own four walls. CPAs should always be looking for ways to help nonprofits evaluate the efficiency of their processes, workforce, and programs as well as guide them to address areas that do not add value or can be combined.

Joining Forces with Other Organizations

If a nonprofit was struggling before

While serving the community and connecting with donors is a deeply personal activity, there are benefits to the virtual connections COVID-19 has necessitated.

An indirect benefit that often accompanies the donation is employee awareness, engagement, and volunteerism.

■ *Private foundations.* Many foundations, such as Mother Cabrini Health Foundation and New York Community Trust, shifted their grant making last year to fill the gaps left by federal relief programs and created emergency relief grant programs to help nonprofits survive the financial impact of COVID-19. CPAs can help nonprofits identify foundations that fund the organization's specific sector and whose grant making goals are closely aligned with the nonprofit's mission. or during the COVID-19 pandemic, it may have been because it no longer had the internal resources necessary to sustain its reimagined strategy, either today or in the future. As a trusted advisor, if a CPA evaluates an organization's financial position and concludes it will not support long-term sustainability—even after the above recommendations have been considered—it may be time to look outside the organization to other nonprofits that provide similar or complementary services.

Deciding to join forces with another nonprofit to achieve financial stability can be a difficult decision for a nonprofit to make. Its identity and vision

INFOCUS

are uniquely tied to its name, history, and current way of doing things. CPAs can help a nonprofit weigh the financial pros and cons of a business combination.

It is important to first understand the business combination opportunities available in the nonprofit sector:

■ Acquisition: A transaction or other event in which a nonprofit acquirer obtains control of one or more nonprofit activities or businesses.

• *Merger:* A transaction or other event in which the governing bodies of two or more nonprofit entities cede control of those entities to create a new combined nonprofit entity. To including an aging executive team or board of directors, lack of visionary attitude, insufficient talent in the workforce, or lack of technological advancement.

Even if a nonprofit organization is not ready to fully commit to an acquisition or merger, combining specific mission-driven activities through a collaboration may be a good first step, if it is enough to rehabilitate the nonprofit's financial health.

Data Analytics

Perhaps a nonprofit is not sure just such as the ones what it needs to do in order to rethink have been missed? its strategic vision; this is where the

data should also be measured against the organization's goals and where its leadership expected the organization to be, today and in the future. How far along is the organization from reaching those goals?

To be most beneficial, this analysis should extend beyond the financial data and into measuring the actual outcomes the organization has realized. How is a nonprofit's programming impacting and changing the lives of the communities they serve? If it's falling short, which solutions such as the ones outlined above have been missed?

Reenvisioning Reality

Deciding to join forces with another nonprofit to achieve financial stability can be a difficult decision for a nonprofit to make.

cede control requires that the merging entities not retain shared control of the new entity. To quality as a new entity, the combined entity must have a newly formed governing body. A new entity often is, but does not need to be, a new legal entity.

■ Collaboration (Shared Services): This occurs when two or more nonprofits agree to collaborate on a specific program, function, or task. The goal is to achieve efficiencies to provide greater value.

In addition to the financial instability that may signal the need for a business combination, nonprofits should also look at other risk factors, powerful tool of data analytics comes in. Utilizing a dashboard and benchmarking tools, a nonprofit can get an accurate picture of its current financials and operations. This result can be used to see how well an organization is meeting its goals and how its performance compares to its peers.

A CPA can run the financials, but the numbers alone do not reflect an organization's position within the context of other economic, competitive, and historical data. CPAs can provide this context by benchmarking the numbers against the organization's own prepandemic performance and the current performance of its peers. The No one can predict when the COVID-19 pandemic will "end," and such an ending may take shape gradually, imperceptibly, and unevenly across sectors and jurisdictions. What results may be a "new reality," a world that is no longer in crisis but does not quite resemble pre-COVID times. The best way to prepare is to start now, by reimagining the organization's strategic vision and aligning parts of the organization necessary to carry out its mission tomorrow and for years to come.

For CPAs, helping nonprofits reimagine their strategic vision may mean reimagining their own role. From technology selection to succession plans, the COVID-19 pandemic has opened a whole new dialogue and opportunities to strengthen client-advisor (or employee-employer) relationships. CPAs can take a more active role in helping nonprofits achieve their missions and make a profound impact in the communities they serve.
